

May 2022

Dear 7th Grade Student + Family,

We are so excited to have you as a member of the CIMS family for the 22-23 school year. Together, we will work diligently to learn, grow, and find success.

Before next year begins, we'd like to provide balanced guidance on how students can remain active learners throughout the summer. *Activities that you should do will directly link to your new classes in the fall. Not doing these activities may put you at a disadvantage or make you feel behind.* *Activities that you might do will keep you stretching as a thinker and as a learner, if you have time or interest in them.*

To be successful in your new grade level, you *should* spend time on these activities:

- Read [Home of the Brave](#), by Katherin Applegate and be ready to test on it at the beginning of the year.
 - Access this book at the Pueblo County Library.
 - If you wish to purchase your own copy, you may do so.
- Finish every Mathia workspace in your current math class. This must be done by June 30, 2022.

To continue staying active and balanced throughout the summer, you *might* spend time on these activities.

- Use the choice board on the back of this page to keep learning.

See you next year!

*If you would like to access any of this electronically, visit our website at www.pueblod60.org/corwin and click on “Students” and then “Summer Practice”.

Optional Choice Board

Stay Balanced	Be an Inquirer	Be Knowledgeable	Be a Communicator
Get in at least thirty active minutes every day for one week.	Design an experiment using baking soda and vinegar. Then go outside and try it.	Have a brief conversation with someone in Spanish.	Write a letter to a government representative (state or federal) expressing concern about an issue important to you.
Go for a walk around the RiverWalk or your neighborhood.	Explore at least 3 different maps on this website: http://www.worldmapper.org/ .	Find the salary of the top 5 quarterbacks in the NFL and figure out how much they make per game. Create a bar graph.	Choose a severe weather event (tornado, blizzard, flood, severe t-storm, hurricane, etc) and write a paragraph on how to stay safe in that event.
Watch at least 30 minutes of a live or recorded performance virtually of your favorite music group or artist.	Create a line graph of the temperature taken the same hour for 14 straight days.	Tour an art, space, or history museum virtually.	Write to a friend, family member or community member and tell them why you're grateful for them.
Go on a nature walk, gather items and make a collage.	Visit a virtual zoo and research an animal you find interesting.	Access Khan Academy and practice integers, rates, and ratios.	Read a book or listen to a song in a different language and try to translate it to English.
Keep a food journal for 1 week and graph your calories consumed.	Ask family members to tell you five things that fill them with gratitude.	Roll a dice 100 times and record how many times you roll each number. Create a chart with your results.	Write a journal about your experiences during a summer day.
